management and then Angular did provide
data binding and keeping your state in
Subtitles/closed captions (c)
5:07 / 34:45

made it a framework. I think I started
working on the first commit of Vue.js in
Subtitles/closed captions (c)
6:07 / 34:45

was building it for myself so my
expectation was I want to build a
Subtitles/closed captions (c)
7:07 / 34:45

like I'm building something that people
are actually using in real world use cases
Subtitles/closed captions (c)
8:07 / 34:45

for the same reason. I felt it's my baby
at that point so if you look at my

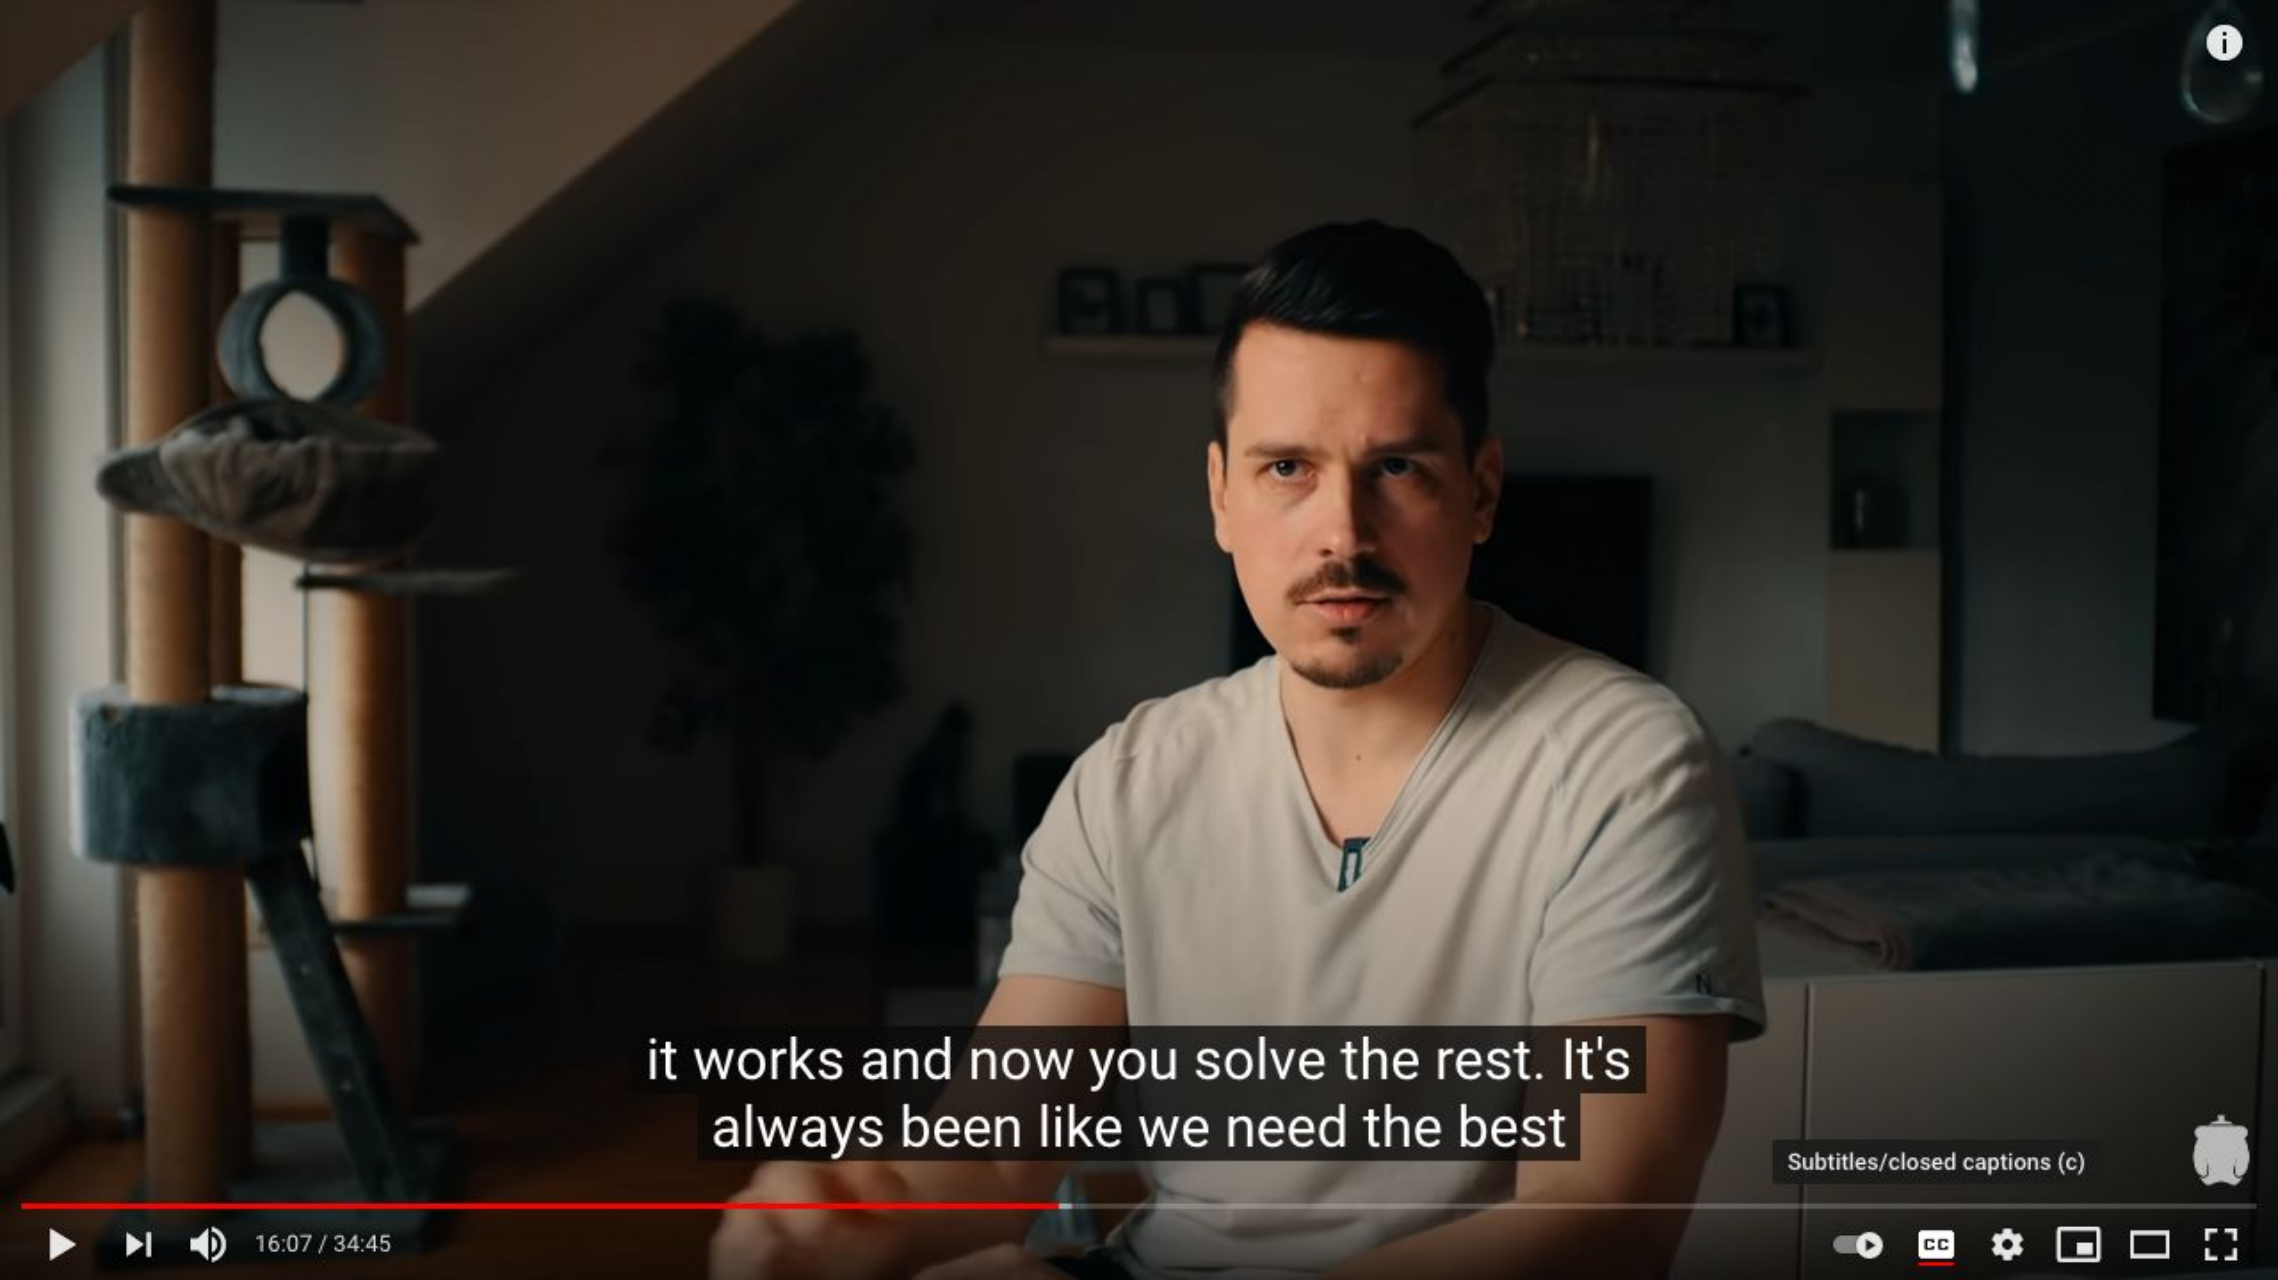
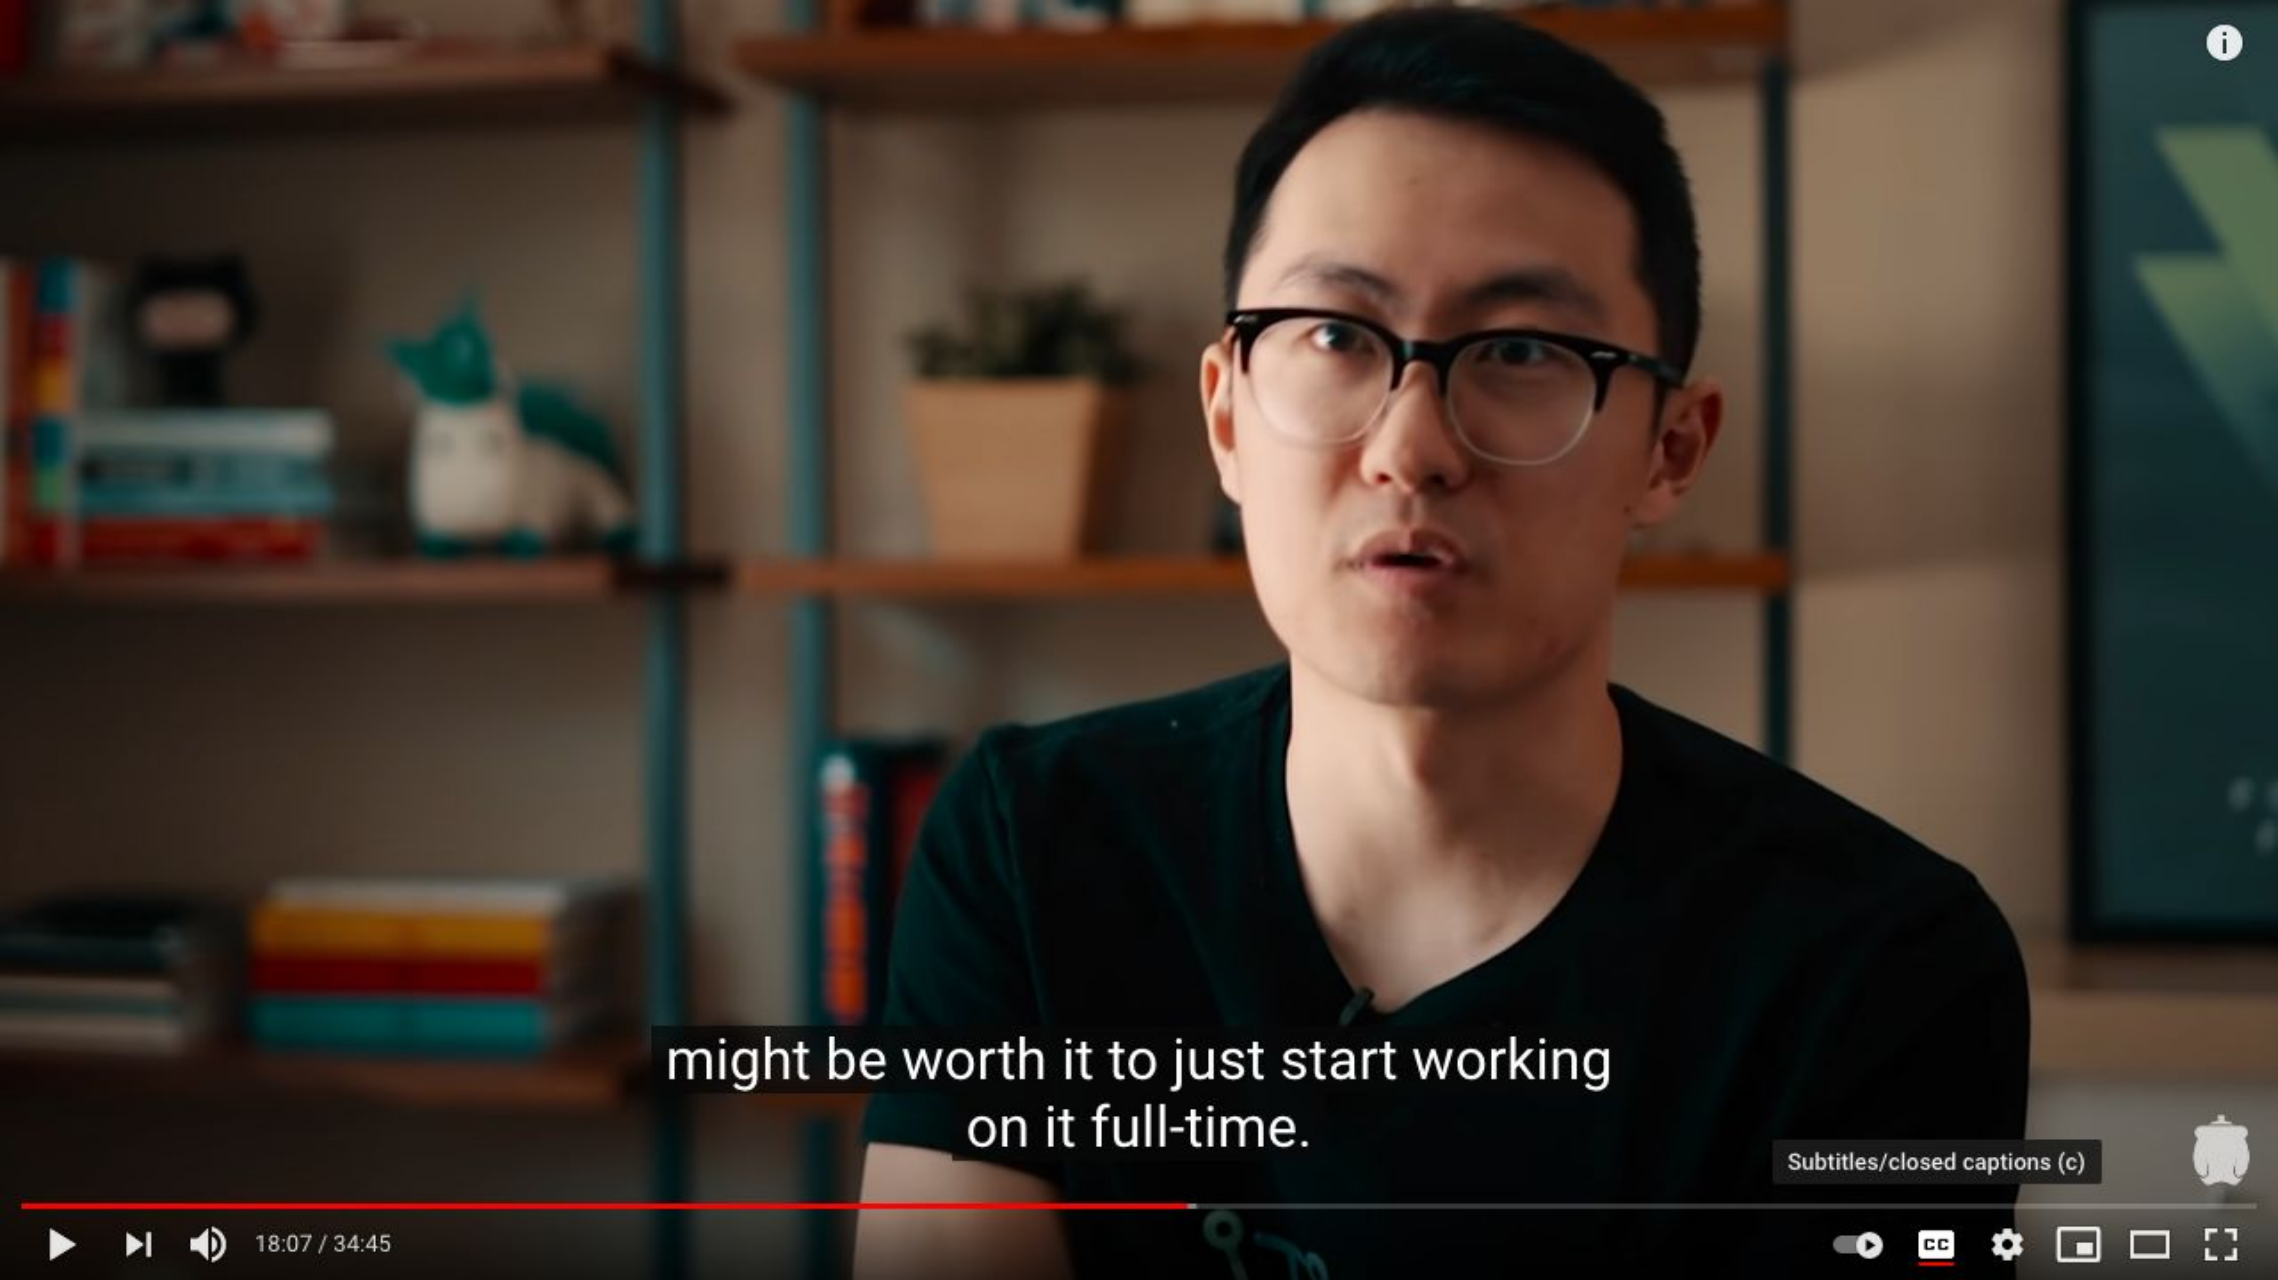
Thorsten Lün
Vue.js core team
wasn't really existent like the way it
is today, it was just Evan and I think
Subtitles/closed captions (c)
15:07 / 34:45



it works and now you solve the rest. It's
always been like we need the best
Subtitles/closed captions (c)
16:07 / 34:45

can work on it full-time. That was really
also the moment when I started to feel
Subtitles/closed captions (c)
17:07 / 34:45



might be worth it to just start working
on it full-time.

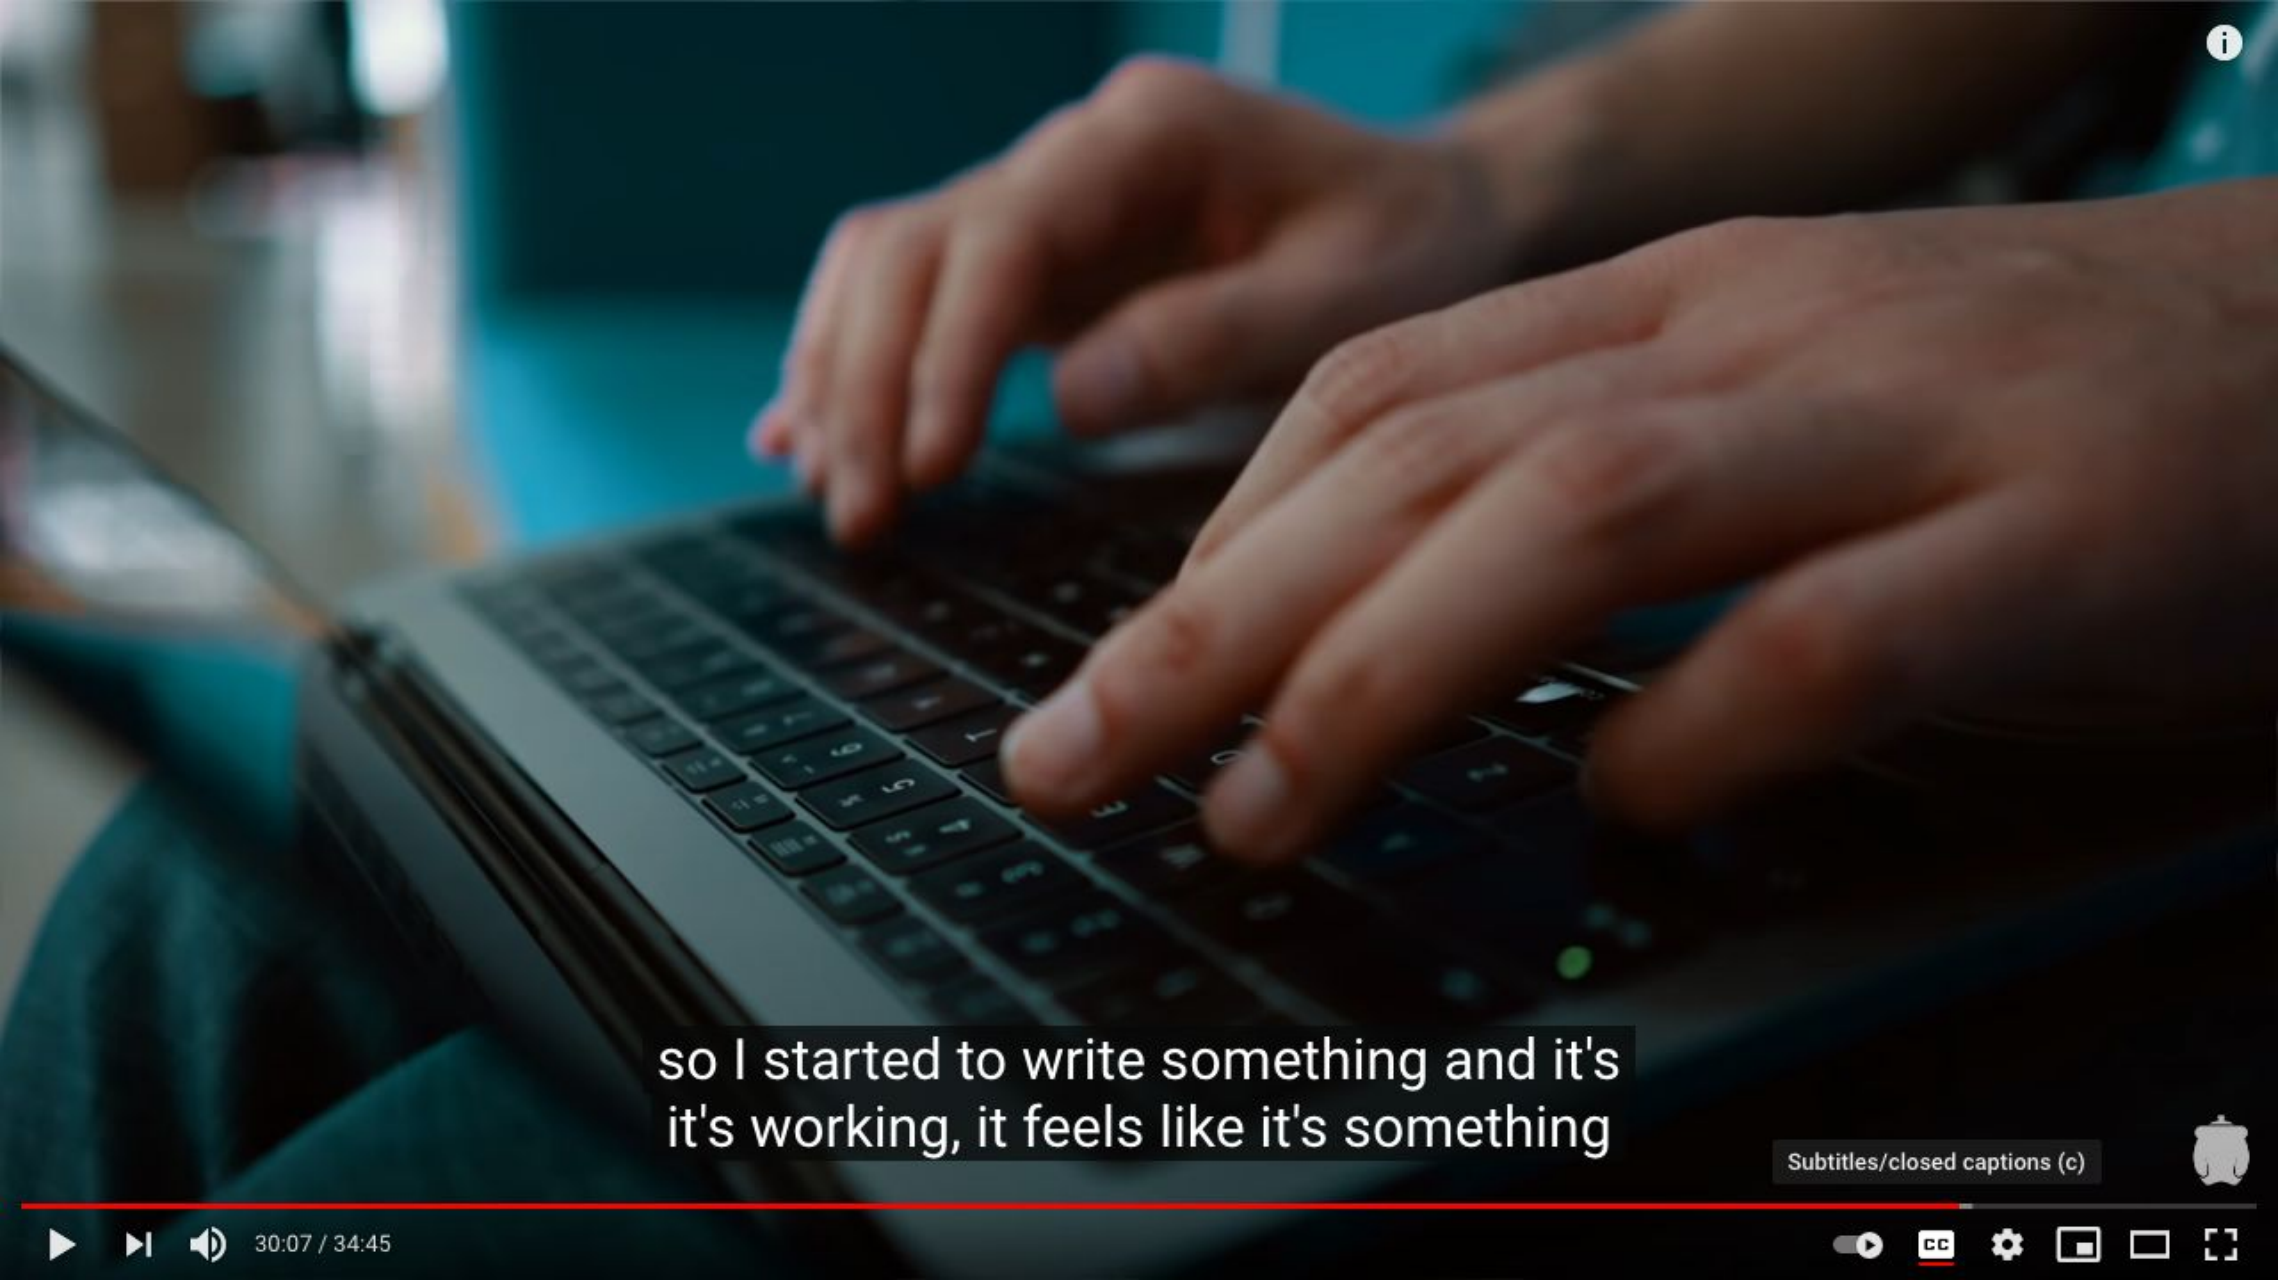
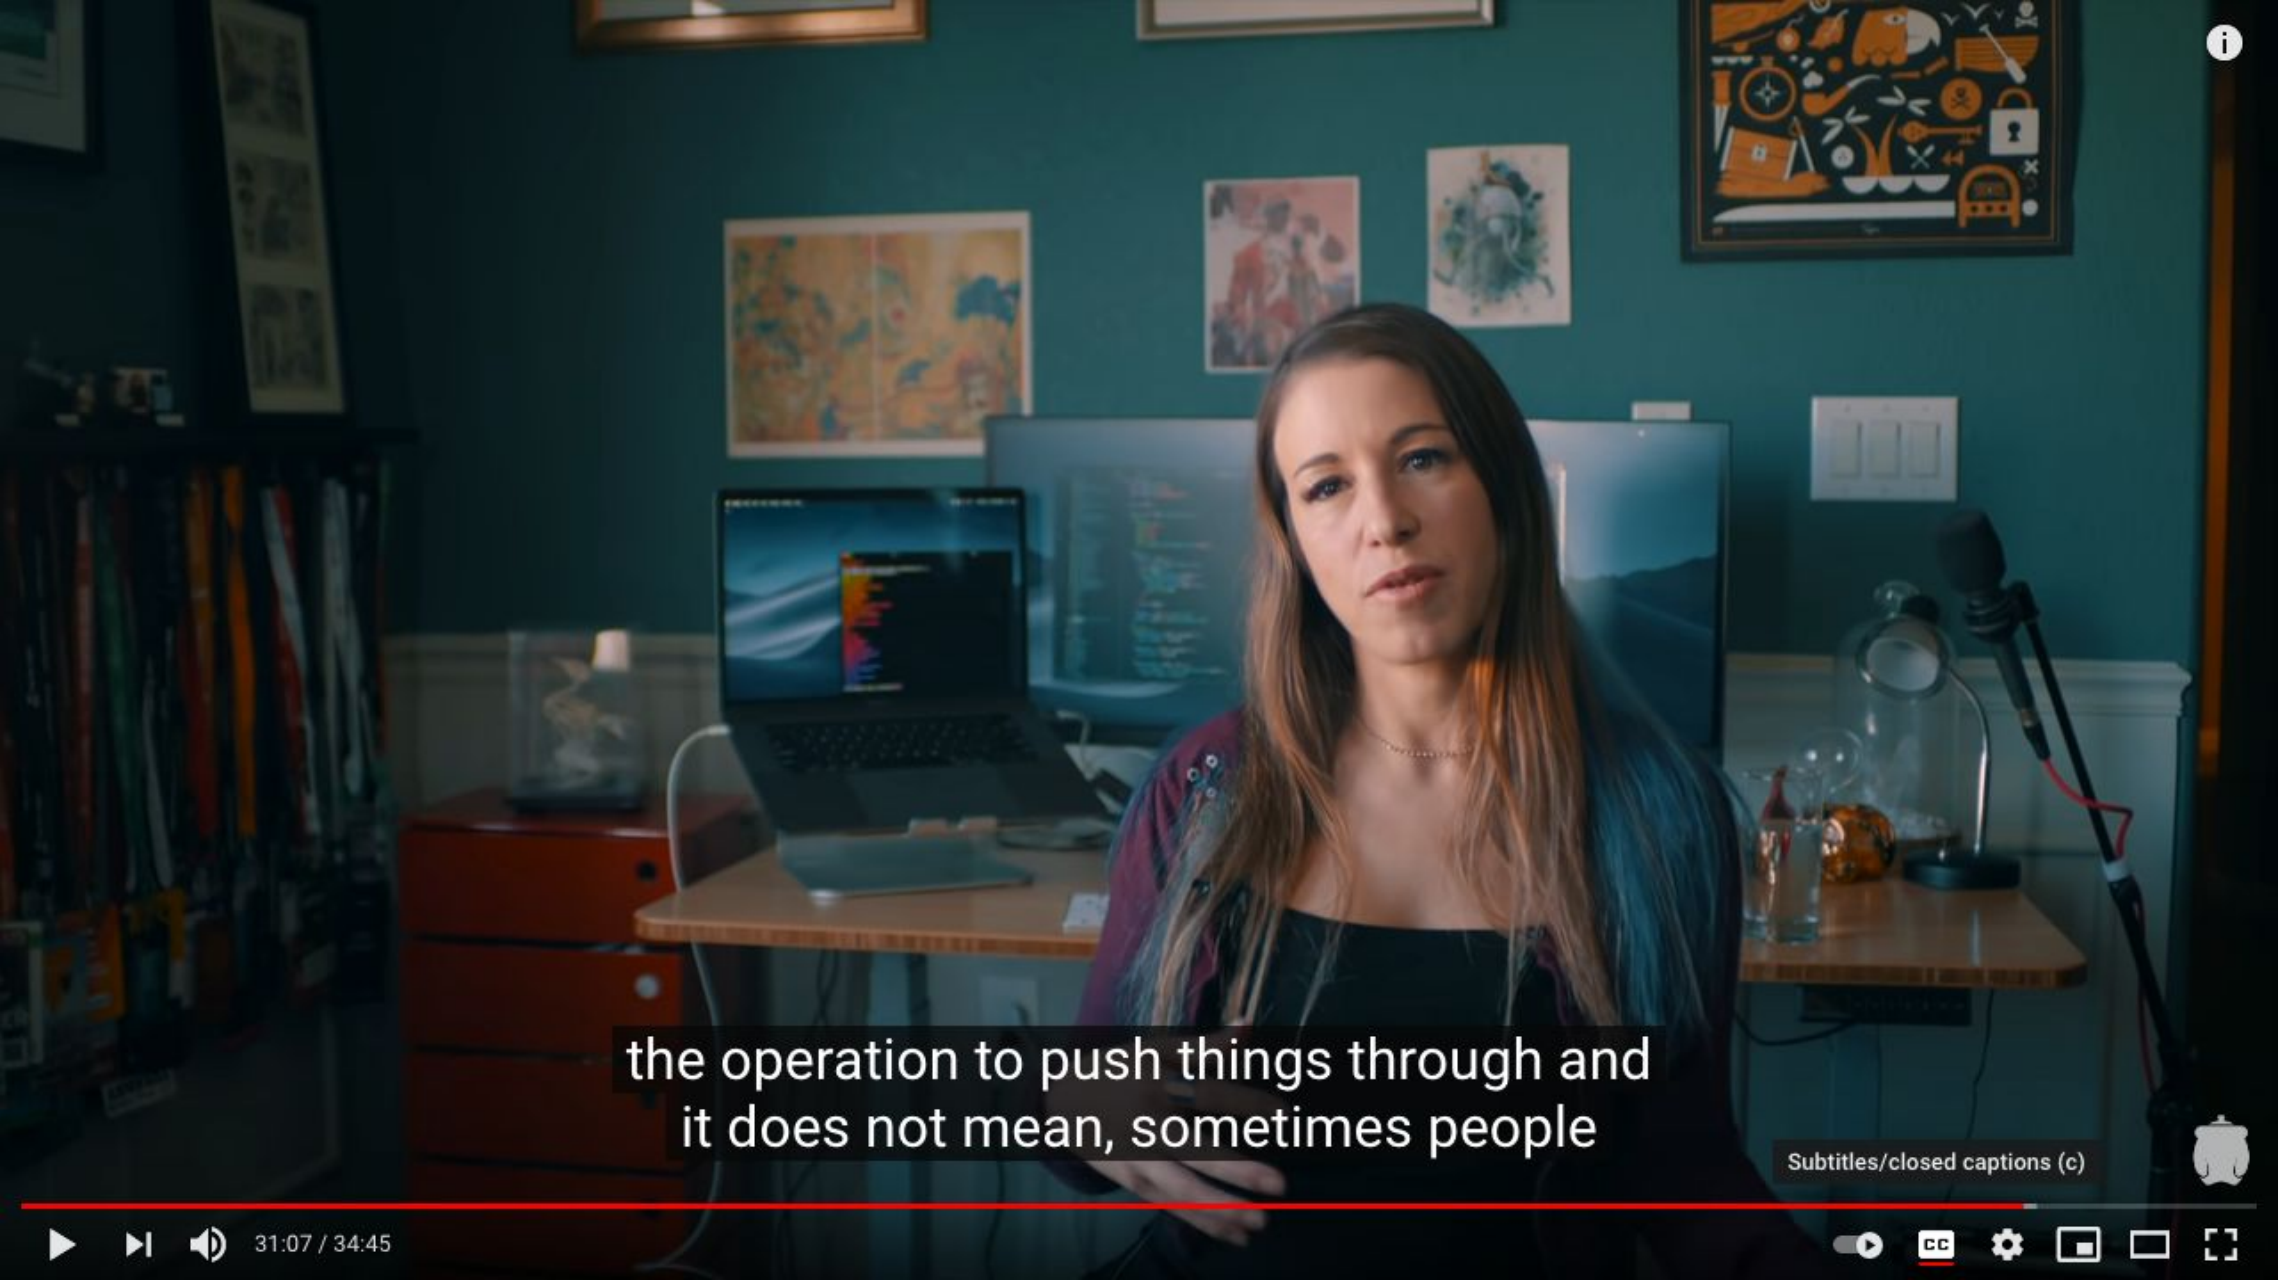
Evan You
Vue.js Creator
Alibaba's campus and just do a
small-scale sort of tech talk sort of
Subtitles/closed captions (c)
28:07 / 34:45

discover hey there is this new framework
called Vue.js and in fact a lot of people
Subtitles/closed captions (c)
29:07 / 34:45



so I started to write something and it's
it's working, it feels like it's something
Subtitles/closed captions (c)
30:07 / 34:45



the operation to push things through and
it does not mean, sometimes people
Subtitles/closed captions (c)
31:07 / 34:45

people involved from the beginning, it's
sort of designed by committee you might
Subtitles/closed captions (c)
32:07 / 34:45

leap to leave a 9 to 5 job and just
work on something I'm generally
